Work Experience

2025 – present
- **Position:** Research Fellow
Organization: Department of Information Engineering, Computer Science and Mathematics, University of L'Aquila
Project: Optimization, deep learning and signal processing techniques for E-Health
P.I.: Prof. Filippo Mignosi

2020 – 2025
- **Position:** Researcher (RTD-A)
Organization: Department of Information Engineering, Computer Science and Mathematics, University of L'Aquila
Project: Optimization of computational resources in TPS (Treatment Planning System) for hadron therapy
P.I.: Prof. Filippo Mignosi

2019 – 2020
- **Position:** Research Fellow
Organization: Department of Electrical Engineering and Information Technology, University "Federico II" of Naples
Project: Automatic evaluation of the experience during multi-agent human-machine and human-robot interaction
P.I.: Prof. Silvia Rossi

2018 – 2019
- **Position:** Research Fellow
Organization: Department of Psychology, University "La Sapienza" of Rome
Project: The body in the brain at rest: MEG studies
P.I.: Prof. Viviana Betti

2013
- **Position:** Term-contract worker
Organization: Department of Life, Health and Environmental Sciences, University of L'Aquila
Project: Design and implementation of a communication system for people with lacking sensory/motor skills, based on the analysis of EEG signals
P.I.: Prof. Giuseppe Placidi

Teaching

- 2021/2022 – present • Compilers: Fo151, 6 CFU, Computer Science, DISIM, UNIVAQ
- 2025 – present • Co-Advisor of a student of the PhD Program in Experimental Medicine, DISCAB, UNIVAQ
- 2024 • Mälardalen University (ERASMUS+ teaching agreement), 10 hours:
  - ICT and ML for signal and image processing (2 hours)
  - Deep Learning for Dose Refinement in Proton Therapy (4 hours)
  - Optimization aspects in Proton Therapy (4 hours)
- 2021/2022 – 2023/2024 • Computer Science Skill: Bo487, 3 CFU, Biotechnologies, DISCAB, UNIVAQ
- 2024 – present • Co-Advisor of two students of the PhD Program in Information and Communication Technology, DISIM, UNIVAQ
- 2020/2021 • Introduction to Computability and Complexity: Fo150, 6 CFU, Computer Science, DISIM, UNIVAQ
- 2020/2021 • Information Retrieval: DTo211, 3 CFU, Computer Science, DISIM, UNIVAQ
- 2021/2022 • Compilers: Fo151, 6 CFU, Computer Science, DISIM, UNIVAQ, (Owner Teacher: Prof. Paola Inverardi)
- 2019/2020 • Theory of Languages: DTo269, 6 CFU, Computer Science, DISIM, UNIVAQ
- 2019/2020 • Compilers Laboratory: DTo275, 3 CFU, Computer Science, DISIM, UNIVAQ
- 2020 – 2025 • Ph.D. Board Member: Health and Environmental Sciences, MESVA, UNIVAQ
- 2020 – present • Tutor or advisor of students of bachelor and master degrees in Computer Science, Information Engineering and Mathematics

Education

- 2018 • **Degree:** Ph.D. in Health and Environmental Sciences (Molecular and Ultrastructural Imaging
  Organization: Department of Life, Health and Environmental Sciences, University of L'Aquila
  Thesis title: Emotion driven brain computer interfaces: alternative pathways for people in minimally conscious state
  Advisor: Prof. Giuseppe Placidi
- 2016 • **Position:** Visiting Student
  Organization: Faculty of Engineering, University of Porto
  Tutor: Prof. João Manuel RS Tavares
- 2014 • **Degree:** Master's Degree in Computer Science (110/110 with honors)
  Organization: Department of Information Engineering, Computer Science and Mathematics, University of L'Aquila
  Tutor: Prof. Giuseppe Placidi
- 2012 • **Degree:** Bachelor's Degree in Computer Science (107/110)
  Organization: Faculty of Science, University of L'Aquila
  Tutor: Prof. Giuseppe Placidi

Participation to Research Groups

- 2020 – present • Artificial Intelligence & Information Mining (AIIM) Group (https://aiimlab.org/).
- 2020 – present • Research group on optimization of computational resources in TPS (Treatment Planning System) for hadron therapy, coordinated by Prof. Filippo Mignosi.
- 2022 – present • Participation in the activities of the European research project ECSEL-JU 2020 RIA AIDOaRt (AI-augmented automation for efficient DevOps, a model-based framework for continuous development At RunTime in cyber-physical systems), funded by Electronic Component Systems for European Leadership Joint Undertaking (ECSEL-JU) under agreement No 101007350.
- 2020 – 2025 • Research group on algorithms, data structures, operational research, artificial intelligence of the Department of Information Engineering, Computer Science and Mathematics, University of L'Aquila, coordinated by Prof. Claudio Arbib.
- 2019 – 2020 • Research group coordinated by Prof. Silvia Rossi within the project "Automatic evaluation of the experience during multi-agent human-machine and human-robot interaction, using biometric signals for process features extraction".
- 2018 – 2019 • Research group coordinated by Prof. Viviana Betti within the project ERC Starting Grant HANDmade (How natural hand usage shapes behavior and intrinsic and task-evoked brain activity) under agreement No 759651.
- 2012 – 2018 • Research group in biomedical informatics "A²VILab", coordinated by Prof. Giuseppe Placidi.

Other Activities

- 2026 • **Organizer:** Web&graph2026, Workshop on Web & Graphs, Responsible Intelligence, and Social Media (WSDM26), co-located with 19th ACM International Conference on Web Search and Data Mining (WSDM26)
- 2026 • **Session Chair:** 19th ACM International Conference on Web Search and Data Mining (WSDM26)
- 2023 – present • **Associate Editor:** Frontiers in Neurology: Artificial Intelligence in Neurology
- 2023 • **Organising Committee Member, Session Chair, Local Chair:** IEEE 36th International Symposium on Computer Based Medical Systems (CBMS2023)
- 2023 – 2024 • **PC Member:** IEEE 36/37th International Symposium on Computer Based Medical Systems (CBMS2023-2024)
- 2023 – present • **PC Member:** 18th/22nd 21st International Conference on Computer Vision Theory and Applications (VISAPP2022-2027)
- 2023 – 2025 • **PC Member:** 26/28th European Conference on Artificial Intelligence (ECAI23-25)
- 2022 • **PC Member:** Joint Workshop (BRIO Workshop (Bias, Risk and Opacity in AI), the ME&E-LP Workshop (Machine Ethics & Explainability - the Role of Logic Programming), and the AWARE AI Workshop (Ethics and AI, a two-way relationship)) in conjunction with AIxIA 2022. (BEWARE2022)

Other Activities (continued)

- 2021 • **PC Member:** 1st Workshop on Machine Ethics and Explainability - The Role of Logic Programming (MEandE-LP2021)
- 2018 – present • **Reviewer for International Journals:** Image and Vision Computing, IEEE Transactions on Cognitive and Developmental Systems, Biomedical Signal Processing and Control, Computer Methods in Biomechanics and Biomedical Engineering: Imaging & Visualization, Computers in Biology and Medicine, Computer Methods and Programs in Biomedicine Update, Brain Sciences, Frontiers in Robotics and AI, Frontiers in Computational Neuroscience, Data in Brief.

Research Projects

- 2025 • **Project:** Definition of rehabilitation protocols for masticatory function, and of sEMG data acquisition and analysis. Feasibility study for the home use of wearable devices
  Type: Joint project DISIM-MESVA, University of L'Aquila
  Amount: 8000 €
- 2024 • **Project:** Compression, Entropy and Deep Learning
  Type: Research Project, University of L'Aquila
  Amount: 12000 €
- 2021 • **Project:** Design and development of an optimization pipeline for proton therapy
  Type: Research Starting Project, University of L'Aquila
  Amount: 3000 €
- 2018 • **Project:** From the brain to the hand. Analysis and classification of movement encoding and functional synergies at the neuronal level and in spontaneous activity
  Type: Research Starting Project, University "La Sapienza" di Roma
  Amount: 2000 €
